Prof. K. Nageswara Rao, Principal  
Potti Sriramulu & Chalavadi mallikarjuna Rao College of Engineering & Technology,  
Vijayawada, Krishna Dist - Andhra Pradesh.

23<sup>rd</sup> Nov, 2015.

Spoken Tutorial Project, IIT Bombay is pleased to welcome PSCMR College of Engg & Technology as a **Knowledge Center** in the district identified. **The project is a part of the National Mission on Education through ICT, MHRD, Govt. of India, to spread IT Competence all over India.** We are confident that your college brings the same vision to enhance the IT literacy in the district. In your role you will -

1. Offer the training to all the students in the college in a time bound and systematic manner by trying as best as possible to use the Computer Lab hours available in the time-table(s)
2. Serve to motivate other colleges in the district to take up the same training.

Spoken Tutorial is an award winning MOOC, a SELF Learning Audio-Video teaching tool which students can use to learn a variety of Open Source Software on their own. We are ready to support you in your efforts to train students on **General IT Skills, Programming and esoteric Software and specialised software for subjects like Chemistry & Biology.** The courses provide employable skills and help improve academic performance. Because of Govt. funding the course, training & certificate will be offered free of cost to all institutions both Govt., and Private.

#### Knowledge Center (KC) Responsibilities

<u>Responsibility</u>	<u>Activities/ Features</u>
Principal to appoint a Chief Faculty coordinator, 1-2 representative Faculty Coordinators (FC) related to Comp.Sc./MCA/IT and 1-2 Student volunteers - the "KC team"	The KC team will work to - 1. Set up the Cell, 2. Send the time-tables from different depts., for mapping to IITB, ST team, 3. Organise awareness workshops for district colleges, 4. Traffic is the major problem everyone facing today . So, our project proposed a model by which we can control the traffic in smart way . This model detects the crowd by using cameras and analyse the mass of the crowd and based upon the crowd and time it gives the green signal . The model is completely based on the mass of the crowd and the maximum time that was allocated . It is also captures the pictures when any one does not follow the traffic rules.</p>

Dear Sir,

[Greetings from e-Yantra for a peaceful and productive 2015! \(Click here\)](#)

As you are aware, e-Yantra is a project supported by MHRD through the National Mission on Education through ICT (NMEICT) to spread Embedded systems and Robotics education in colleges across India.

We invite you and Heads of concerned departments to participate in the e-Yantra Lab Setup Initiative (eLSI) that enables colleges to set up Robotics labs and teach Robotics and Embedded systems in an effective manner. Details of the meeting are given below:

**Date/Time:** Tuesday, January 27, 2015; 10:30 AM – 01:00 PM (followed by lunch)**Venue:** Conference Hall - I, Guest House, Vignan University, Vadlamudi - 522213.

e-Yantra Lab Setup Initiative (eLSI) is a holistic approach to (i) impart theoretical and programming knowledge to teachers through workshops, (ii) provide hands on training to teachers through regional e-Yantra Robotics Teacher Competition (eYRTC), and (iii) help colleges set up their own Robotics labs.

To know more about this exciting initiative, please refer to the attached pamphlet. Sixteen labs were inaugurated in Mumbai through the eLSI - Pilot phase, on April 5, 2013. Please refer to the article that appeared in Hindustan Times attached herewith. In April 2014, we inaugurated 35 labs at colleges from Delhi, Ichalkaranji, Pune, Chandigarh, Shimoga.

In the current phase, over 60 colleges from Tamil Nadu, Noida and Kolkata have been trained in a two-day workshop and have successfully participated in the e-Yantra Robotics Teacher Competition (eYRTC). Finals of eYRTC and simultaneous lab inaugurations are being held at these 6 regions. (**Visit:** [www.e-yantra.org](http://www.e-yantra.org))

Agenda for the meeting:

- e-Yantra: an overview
- What is eLSI? Why is it important for you?
- Discussion of the model and modalities
- Selection of colleges

After the meeting, colleges express their interest to participate in this Nation-building initiative by sending us a Letter of Intent (LoI). Format of the LoI is attached with this mail. (You may bring the LoI, duly signed and stamped to the meeting.)

We look forward to meeting you and launching this initiative successfully in your region. We will greatly appreciate if you can confirm your presence at the meeting **on or before January 21, 2015**.

**RSVP:**

S. Krishna Chaitanya,  
Assistant Professor, Department of Applied Engineering, Vignan's University

Dear Sir,

On behalf of our Management, Principal and Team of Robotics Lab of PSCMRCET, I cordially invite you to attend the Robotics Lab Inauguration in collaboration with IIT Bombay at our Campus at PSCMR College of Engineering&Technology, Vijayawada-1.

Your presence here is immense and favorable to us. Please come over with your team for effective Press & Media coverage.

Please find our heartfelt invitation.

Thanks

Respected Sir/Madam,

Greetings from e-Yantra!

We hope you are enjoying working on Task 5 of Task Based Training (TBT-2016). Task 6 which is also the final task will be launched on 14th May 2016.

We have around 75 colleges participating in this phase of eLSI and we are planning to schedule online Valedictory Function and Lab Inaugurations in the **second week of July 2016**. The Valedictory function and Lab Inaugurations will happen completely online through web conferencing with each college assigned a fixed time slot. More details about this will be sent in the due time.

#### Valedictory function:

This will involve distribution of the Completion Certificates/Proficiency awards i.e Class A/B/C (if eligible) depending on your team's performance in TBT-2016. These awards will be shipped before hand to all the eligible colleges and may be awarded to your team by your respective college officials/ HoD/Principal.

#### Lab Inauguration:

Colleges that are ready with the lab setup will receive an e-Yantra Signage. This signage will serve as an acknowledgement for the lab as a part of the e-Yantra Lab Setup initiative (**eLSI**) and also identifies the college as a member of the 150+ e-Yantra family of colleges spread across India.

Apart from this, colleges that have setup their labs and also have successfully completed all the tasks of TBT-2016 will receive the **two free robotic kits** for their newly established labs.

-----

We understand that many colleges have started the procurement process and some have also received their equipment.

It is the right time for colleges that have not started the procurement process to start the same, so that all the colleges are ready with the lab setup by the second week of July 2016.

More information about lab setup and procurement of equipment will be sent in the following mail.

If you have any query, please feel free to contact us on [support@e-yantra.org](mailto:support@e-yantra.org) or call us on 2576-4986.

---

Respected Sir/Madam,

Greetings from e-Yantra!

We hope you are enjoying working on Task 5 of Task Based Training (TBT-2016). Task 6 which is also the final task will be launched on 14th May 2016.

We have around 75 colleges participating in this phase of eLSI and we are planning to schedule online Valedictory Function and Lab Inaugurations in the **second week of July 2016**. The Valedictory function and Lab Inaugurations will happen completely online through web conferencing with each college assigned a fixed time slot. More details about this will be sent in the due time.

#### Valedictory function:

This will involve distribution of the Completion Certificates/Proficiency awards i.e Class A/B/C (if eligible) depending on your team's performance in TBT-2016. These awards will be shipped before hand to all the eligible colleges and may be awarded to your team by your respective college officials/ HoD/Principal.

#### Lab Inauguration:

Colleges that are ready with the lab setup will receive an e-Yantra Signage. This signage will serve as an acknowledgement for the lab as a part of the e-Yantra Lab Setup initiative (**eLSI**) and also identifies the college as a member of the 150+ e-Yantra family of colleges spread across India.

Apart from this, colleges that have setup their labs and also have successfully completed all the tasks of TBT-2016 will receive the **two free robotic kits** for their newly established labs.

-----  
We understand that many colleges have started the procurement process and some have also received their equipment.

3/8/2019

PSCMR College of Engineering & Technology Mail - Fwd: e-Yantra Lab Setup Initiative (eLSI) : Lab Inaugurations/TBT conclusion

It is the right time for colleges that have not started the procurement process to start the same, so that all the colleges are ready with the lab setup by the second week of July 2016.

More information about lab setup and procurement of equipment will be sent in the following mail.

If you have any query, please feel free to contact us on [support@e-yantra.org](mailto:support@e-yantra.org) or call us on 2576-4986.

Subject: Invitation to set up e-Yantra Robotics Lab in your College  
To: <principal@pscmr.ac.in>

Dear Sir/Madam,

MHRD has sponsored by e-Yantra, a project under National Mission on Education through ICT (NMEICT) that enables setting up of Robotics labs in colleges throughout the country and trains teachers to be effective mentors and enthuses students with exposure to embedded systems and robotics through "Project-based-learning". (Please refer <http://www.e-yantra.org>)

e-Yantra provides a two-phase training free of cost to teachers:

- A two-day face-to-face workshop to introduce them to the basic concepts of Robotics and Embedded systems and
- Online training over 3-4 months termed Task-Based Training (TBT) where teacher teams are given a Robotic kit and guided to implement experiments using the robot.

To participate, a college needs to invest Rs. 2L towards equipment and accessories to set up a basic lab and nominate 4 teachers to be trained. In addition to both face-to-face hands-on training followed by online training, e-Yantra provides 3 free robotic kits to colleges where teacher team completes training and college sets up their lab.

Detail information in this regard and other benefits to colleges once they have set up a robotics lab is available at <http://www.e-yantra.org> and may also be contacted to Prof. Kavi Arya at the following address.

# Project Proposal

**Title of the Project: CHASER DRONE**

**Team Members (Total) : 4**

**Faculty Members(Names) : V.S.R.K.PASAD. G**

**Student Members (Names):**

1. P.Jagadeeshwara Vara Prasad 2<sup>nd</sup> year
2. P.Lakshmi Saroja 2<sup>nd</sup> year
3. Likith Kumar 2<sup>nd</sup> year
4. Sri Teja 2<sup>nd</sup> year

**Objective :**

As majorly Indian population is depend on agriculture, so they need to harvest their fields and later on they need to survive their fields from damaging of wild animals. This is manually the farmers as to save their fields from damaging. As the drone technology change rapidly, with the help of it, the farmers automatically can prevent their fields from damaging of wild animals and can also prevent when they entered into field.

**Details of Proposal Sent or Competitions Participated:**

- 1) E-Yantra Robotics Competition 2017 –IIT Bombay

**Out Come:**

To make Drone technology to helpful for farmers for farming their fields and also to prevent from damaging of crops without manually.

- 1 P.Jagadeeshwara Vara Prasad 2<sup>nd</sup> year
- 2 P.Lakshmi Saroja 2<sup>nd</sup> year
- 3 N.Leela Pavan Kumarr 2<sup>nd</sup> year

## **Objective :**

As normally in restaurants the customers are serviced with a waiters whether the order taking, bringing and servicing this is done everything manually, Thus it may have a delay taking at any process and owners are needed to bear them. Now days as rapid growth of robot technology (AI) which makes work automation. Thus instead of having manually to make automation the robots can use and make them to have a order taken from customers and giving at kitchen and serving within a time which makes a work efficient. Thus how it makes a simple we are implementing within our project.

## **Objective:**

As one of leading technology is IoT which makes things automation . The objective of project is to develop a robot that is used to controlled a vehicle automatically to detect object coming front and controlling of vehicle from accidents irrespective of driver attention. It is also used to detect the front vehicles in fogs, As in fogs the driver can't able to see front vehicles coming and can occur accidents,So to overcome it we designed a robot that can overcome such causes. This robot is attached in front to vehicle to overcome it.

## **Objective :**

The objective is making traffic simple in 4 or 8 ways road junction's crossing over. As normally at the junctions of roads to cross vehicles we apply a traffic signal system with a time interval for each road. When one way had heavy vehicles and other way doesn't have then we need to wait the vehicles until the way comes. Thus the signal system doesn't have efficient working. So to have efficient system we proposed a automation signal system where there is a heavy vehicle the automatic system will clear that way first and later the next way.

## MEMORANDUM OF UNDERSTANDING

This memorandum of understanding made and entered into on this 25<sup>th</sup> day of NOVEMBER '16 at Vijayawada, between The **POTTI SRIRAMULU CHALAVADI MALLIKARJUNA RAO COLLEGE OF ENGINEERING AND TECHNOLOGY**, Vijayawada has represented by the Principal Sri Dr.K.Nageswara Rao, on herein after referred to as "First Party" which expression unless repugnant to the subject or context shall mean and include its successors and assignees of the part.

### AND

**SOFTWARE DEVELOPMENT CENTER, SOUTH CENTRAL RAILWAY WOMEN'S WELFARE ORGANISATION**, an organization in Indian railways as Second party, which expression unless repugnant to the subject or context shall mean and include its successors and assignees of the part.

It has imparted Software Trainings to the railway employees of different departments of Vijayawada division under "Management Information Systems". It has developing the different types of software for the Departments in the South Central Railway, Vijayawada Division. On this account, we are providing the LIVEPROJECTS and INDUSTRIAL TRAINING including certificates from various Departments of SCR/BZA for the students M. Tech, B. Tech (CSE, ECE, IT, EEE, MECH, CIVIL and ECM), Diploma and MCA belonging to various engineering colleges affiliated to JNTUK, Nagarjuna University, Vignan University, Vikramasimhapuri University, SV University, Andhra University, NIIT etc., during the last twelve years.

We are glad to inform you that our Organization is considering you to accommodate the students to take up projects/internships in South Central Railway, Vijayawada Division with reasonable fee. We are able to provide guidance for limited M. Tech, B. Tech, Diploma and MCA students.

**AND WHERE AS,**

The **POTTI SRIRAMULU CHALAVADI MALLIKARJUNA RAO COLLEGE OF ENGINEERING AND TECHNOLOGY, Vijayawada-1** started in the field of Professional academic Education in Engineering Curriculum of Computer Science & Engineering, Electronics & Communication Engineering, Electrical & Electronics Engineering, Civil Engineering and Mechanical Engineering and their applications such as Robotics, Cloud Computing, Domain Specific areas, Networking, Security, Website Development, Artificial Intelligence, Electronics, Electrical, Mechanical applications; in technical collaboration with Professional bodies (Both National & International) and IIT's of India.

Now the second party has proposed to impart projects and industrial training to Computers, Electronics, Electrical and Mechanical students in the concern department of south central railway, Vijayawada to improve their skills, to bridge the gap between academics and Industry by exposing students practically to the live equipment which will be useful for their future and help them understand the working environment of concern department.

**NOW THIS MEMORANDUM OF UNDERSTANDING AS FOLLOWS**

1. The student has to fill the application form with latest passport size photo.
2. The student has to pay the fee.
3. The student has to maintain the discipline in the railway premises.
4. The Organization will maintain the attendance register for every student.
5. The SCRWWO will not pay any stipend.

**Curriculum for CSE and IT students:**

1. Complete explanation of different departments in South Central Railway, Vijayawada
2. Training in Web based Technology and Database Programming.
3. Development of Software to different departments.
4. Execution and Installation.

**Curriculum for ECE/EIE students:**

1. Explanations about the working process in the Signal and Telecommunication Department, South Central Railway, Vijayawada.
2. Making the model Kit or study project which belongs and uses to the South
3. Central Railway, Vijayawada (Optional).

**Curriculum for MECHANICAL students:**

1. Explanations about the working process in the Mechanical Department, South Central Railway, and Vijayawada.
2. Making the model Kit or study project which belongs and uses to the South
3. Central Railway, Vijayawada (Optional).

**Curriculum for EEE students:**

1. Explanations about the working process in the Electrical Department, South Central Railway, and Vijayawada.
2. Making the model Kit or study project which belongs and uses to the Electrical
3. Department, South Central Railway, Vijayawada (Optional).
